SPRINGTIME BULB FARMS, INC.

LEBANON, OHIO

Nutri-Pot PEAT POTS

FOR INDOOR STARTING OF SEEDS AND BULBS

Nutri-Pot Peat Pots are made of compressed peat moss and pulp. These pots are impregnated with fertilizer and make an ideal starting medium for the indoor planting of seeds and bulbs.

Pots are so designed that when planted in the ground it soon disintegrates without any 'Transplant shock' to the started plant or bulb.

Ideal for promotion with all types of indoor bulbs such as Begonias, Caladiums, Lilies, Hanging Basket Begonias and other bulbs. Also used extensively for starting seeds or for transplanting seedlings when already started in other flats.
